THE TRIPARTITE IMPACTS OF COVID-19 : THE LEGAL, SOCIAL AND ECONOMICS PERSPECTIVES

EMPLOYMENT ISSUES DURING AND AFTER MOVEMENT CONTROL ORDERS (MCO/CMCO/RMCO)

ABOUT OUR TOPIC

The COVID-19 pandemic has undoubtedly affected our daily lives. Similarly, the employment sphere is one of the many areas of life that has evidently suffered the bigger blows of the pandemic.

Some common concerns that have surfaced among employees and employers in this pandemic include matters of retrenchment, salary payout, leaves and so forth. Hence, without a comprehensive understanding of one's employment rights and entitlements, one would be unscrupulously taken or be taken advantage of while putting livelihoods dangerously at stake.

Unfortunately, many Malaysians in the workforce are still in the dark about their rights and entitlements as employees and employers, especially at times like such.

Hence, the first E-Legal Summit series will be kicked off with the webinar topic of "Employment Issues during and after Movement Control Orders (MCO/CMCO/RMCO)" with our esteemed speaker, Ms. Selvamalar Alagaratnam, the co-head of Skrine's employment practice.

This webinar hopes to be an interactive session that will encourage the dissemination and exchange of ideas and opinions through intellectual and diplomatic communications on the topic of employment issues in this pandemic which aims to enlighten the public, particularly people of the workforce, of their employment rights.
